

## **Bellante Antonio PhD**

### **Personal information**

**Name:** Antonio **Surname:** Bellante **Place and date of birth:** Palermo, 04/12/1980 **Address:** IAMC-CNR Via del Mare, 3 Torretta Granitola (Fraz. Campobello di Mazara, TP) 91021, Italy **Nationality:** Italy

**E-mail:** antonio.bellante@iamc.cnr.it **Tel.:** +39 0924 40600

### **Profile**

My current research activity is linked to marine biogeochemistry, with special regards to the monitoring of marine pollution. The main objective of my work is to assess the environmental status of marine ecosystem using the concentration of different contaminants in different tissues of marine organisms that can be used as bioindicator of marine pollution.

### **Education**

(2005) University Degree in Biological Sciences-University of Palermo.

(2010) PhD in Science and High Technology, with a thesis titled: “Trace elements and stable isotope in tissues and organs of five species of cetaceans from the Italian coasts”.

### **Working experiences**

(2011-2012) Term contract researcher at the IAMC-CNR of Capo Granitola focused on use of survey systems on marine environment and chemical pollution.

(2008-2009) Term contract researcher at the IAMC-CNR of Capo Granitola focused on new methods for the study of pollutants and marine mammals ecology.

(2006-2007) Term contract researcher at the IAMC-CNR of Capo Granitola focused on projects of model management of marine resources. Collection of environmental and biological data in the Strait of Sicily.

### **List of publications**

**Bellante A.**, Sprovieri M., Buscaino G., Salvagio Manta D., Buffa G., Di Stefano V., Bonanno A., Barra M., Patti B., Giacoma C., Mazzola S. Trace elements and vanadium in tissues and organs off five species of cetaceans from Italian coasts. *Chemistry and Ecology*, 2009, 25: 311-323.
