(03/21/2017) PhD :enviramental biology and biodiversity Anthropic address from University of Study Palermo, departiment of Science and Technologies Biologic Chemistry and Pharmaceutical;

University Degree: **Biodiversity and Evolution (N.O)** 8/10/2013 college of Palermo

(110/110 cum Lode)

Working experience

Since 01/01/2011 to same time research activity in laboratory of Ecology and molecular Biology in IAMC-CNR of Capo Granitola, specializing in HPLC protein separation;

Since 03/01/2010 to day time research activity in laboratory biogeochemistry in IAMC-CNR of Capo Granitola, specializing to strumental use and tecnology of separation and analysis several matricies , study and enviromental monitoring.;

Since 8/3/2011 until now: appointment of responsibility of equipment in laboratory of IAMC-CNR dell' UOS di Capo Granitola (DMA80 e LUMEX) for analisys of atomic Mercury;

Other working experience:

Since 09/12/2015 to 10/08/2015 research and learned HPLC techniques for the determination of free and peptide-bound amino acids in animal tissues, in laboratory at Texas A&M University (with the letter for Whom It May Concern By University Distinguished Professor Guoyao Wu Ph.D);

Since 2015 to 2017 research and learned use of spettrophotometer techniques for the determination of Enzymatic activity in tissues of pelagic fish, at Palermo University laboratory with Professor Cammarata Matteo;

2008 reserch and learned use od spettrofotometer technique for lipid , carbohydrates and protein total in muscle tissues of larval fish, at University of Ecology (Vigo);Spain with Professor Castor Guisande;
