

## PERSONAL INFORMATION

Simona Manuguerra  
✉ simona.manuguerra@unipa.it

## ACTUAL POSITION

Grant holder in the project: "Centro Internazionale di Studi Avanzati su Ambiente, ecosistema e Salute umana - Cisas" Work Package 5 "Molecular Epidemiology" -Task 5.4 - Biomolecular markers related to exposure in vitro. Research activity on effect of antioxidants and xenobiotics on the modulation of markers involved in the metabolism, for the definition of sensors from environmental exposure.

Dept DiSTeM- University of Palermo (Italy). Laboratory of Marine Biochemistry and Ecotoxicology c/o Marine-Biology Institute

## WORK EXPERIENCE

From 1 March 2017 to 17 September 2017

Voluntary participation at the research activity of the laboratory  
Research activity on cell cultures and molecular stress markers with enzymatic tests, immunoblotting and gene expression analysis by RT-PCR.  
Evaluation of the effect of antioxidants and xenobiotics through the study of markers involved in the metabolism, in marine organisms, exposed to environmental stress conditions.  
Evaluation of oxidative stress markers (ROS-MDA) by spectrofluorimetry.

Dept DiSTeM- University of Palermo (Italy). Laboratory of Marine Biochemistry and Ecotoxicology c/o Marine-Biology Institute

From 31 May 2016 to 31 January 2017

Grant holder in the project **Recupero e valorizzazione degli scarti di lavorazione del gambero rosa (*Parapenaeus Lonirostris*) nella Marineria di Portopalo di C.P. (SR): estrazione, isolamento, qualificazione di composti bioattivi e valutazione delle proprietà bioattive”**.

Maintenance of fish cell cultures and evaluation of the effects of antioxidants in cell cultures through dosage of stress markers. Extraction and evaluation of bioactive compounds in *Parapenaeus Lonirostris* with HPLC and evaluation of bioactive properties. Preparation of protein hydrolysates with enzymatic and ultrafiltration techniques.

Marine-Biology Institute - Consorzio Universitario della Provincia di Trapani

From October 2015 to December 2015

Grant holder in the project: **Innovazione tecnologica e sviluppo sostenibile nel settore della trasformazione dei prodotti ittici del Litorale Trapanese”**

Characterization of toxicity markers on marine organisms through the evaluation of the degradation of the nitrogenous component and the evaluation of primary and secondary products of lipid degradation; extraction, isolation, identification of bioactive compounds and evaluation of in vitro properties; gene expression analysis by RT-PCR.

Marine-Biology Institute - Consorzio Universitario della Provincia di Trapani

From 25 July 2014 to 31 December 2015

Grant holder in the project: “**SecurAqua – Sécurité et qualité des produits aquacoles: le développement d'une voie commune tuniso - sicilienne”. Programma di cooperazione transfrontaliera (IEVP) Italia-Tunisia 2007-2013**

Study on the effect of farmed systems on well-being, metabolism and also on the quality of fish products. Evaluation of the lipid component: lipidic classes and fatty acids. Evaluation of the nitrogen component: protein dosage, SDS-PAGE electrophoresis, immunoblotting..

Marine-Biology Institute - Consorzio Universitario della Provincia di Trapani

## EDUCATION AND TRAINING

July 2011

Qualified as a biologist

University of Palermo, (Italy)

April 2011

Master Degree in Biology and Biomedical Applications

December 2007

Master thesis: Activation of arginase from PKC in human enhancer: transduction mechanisms  
University of Parma  
**Bachelor Degree in Marine Biology**

Thesis title: alternative methods - animal experiment in marine biology  
University of Palermo
