

## PERSONAL INFORMATION

**Maria MORGHESE**  
✉ [maria.morghese@unipa.it](mailto:maria.morghese@unipa.it)

## WORK EXPERIENCE

From 15<sup>th</sup> September to today

## RESEARCH ACTIVITY

Grant holder in the project: "Centro Internazionale di Studi Avanzati su Ambiente, ecosistema e Salute umana - Cisas" Work Package 5 "Molecular Epidemiology" -Task 5.4 - Biomolecular markers related to exposure *in vitro*.

*Dept DiSTeM- University of Palermo (Italy) Laboratory of Marine Biochemistry and Ecotoxicology c/o Marine-Biology Institute*

- - evaluation of the effect of xenobiotics on lipid metabolism
- - definition of environmental exposure markers

Voluntary participation at the research activity of the laboratory

*Dept DiSTeM- University of Palermo (Italy) Laboratory of Marine Biochemistry and Ecotoxicology c/o Marine-Biology Institute*

- research activity on cell cultures and molecular stress markers

Grant holder in the project: "Innovazione tecnologica e sviluppo sostenibile nel settore della trasformazione dei prodotti ittici del Litorale Trapanese"

Marine-Biology Institute - Consorzio Universitario della Provincia di Trapani

- - Characterization of the biochemical-nutritional composition of marine organisms;
- - Characterization of toxicity markers on marine organisms through the evaluation of the degradation of the nitrogenous component and the evaluation of primary and secondary products of lipid degradation;
- - Extraction, isolation, identification of bioactive compounds and evaluation of *in vitro* properties.

Grant holder in the project: "SecurAqua – Sécurité et qualité des produits aquacoles: le développement d'une voie commune tuniso - sicilienne". Cooperation program transfrontier (IEVP) Italy-Tunisia 2007-2013 –

Marine-Biology Institute - Consorzio Universitario della Provincia di Trapani

- Research activity on the metabolism and the quality of farmed fish products.

Voluntary participation at the research activity of the laboratory

*Dept DiSTeM- University of Palermo (Italy). Laboratory of Marine Biochemistry and Ecotoxicology c/o Marine-Biology Institute*

## OTHER WORK EXPERIENCE

Veterinary assistant

Ajmal Arabian Stud (Al Wafran, Kuwait) di proprietà di Mr. Mohammd J. Al Marsouq.

From September / 2016 to December / 2016

Trainee

Institute for Coastal Marine Environment (IAMC-CNR), Mazara del Vallo (Italy)

- management of fish resources
- software development and GIS
- management of the coastal strip
- transfer to companies of scientific and electroacoustic technologies used in fishing activities

## EDUCATION AND TRAINING

10th July 2017

Qualified as a biologist

University of Palermo, (Italy)

21st July 2016

Master Degree in Biology and ecology of marine coastal environment

University of Messina, (Italy); Department of Chemical, Biological, Pharmaceutical and Environmental Sciences

Master thesis: " Use of *in vitro* systems for the evaluation of the effects of bioactive compounds of marine origin"

16th July 2013

Bachelor Degree in Aquaculture and fish production hygiene

University of Bologna, Cesenatico (Italy); School of Agriculture and Veterinary Medicine

Professional competence on all aspects of agriculture, animal welfare, agriculture and economics of animal husbandry transformation and marketing of fish products

## ADDITIONAL INFORMATION

## Publications

- •**Morghese M.**, Manuguerra S., Randazzo M., Arena R., Gharbi S., Sadok S., La Barbera L., Messina C.M., Santulli A., 2016. Indicateurs Biochiques-nutritionnels pour la distinction de l'origine et de la méthode de production des poissons d'élevage. Procedeeing de association tunisienne des Sciences Biologiques. 27ème Forum International, 28-31 Mars 2016-Hammamet-Tunisie : 254.
- •Manuguerra S., **Morghese M.**, Arena R., Renda G., Laudicella A., Sadok S., La Barbera L., Messina C. M. Santulli A., 2016. Effet du stress d'abattage sur la qualité de de loup de mer (*Dicentrarchus labrax*) élevé. Procedeeing de association tunisienne des Sciences Biologiques. 27ème Forum International, 28-31 Mars 2016 Hammamet-Tunisie : 252.
- •Manuguerra S., **Morghese M.**, Randazzo M., Arena R., Gharbi S., Renda G., Laudicella A., Pizzo F., La Barbera L. et Messina C. M et Santulli A. 2016. Indicateurs biochimiques pour l'évaluation de la qualité du loup de mer (*Dicentrarchus labrax*) et de la daurade (*Sparus aurata*), sauvages et élevés en intensif. Qualité des produits aquacoles: les cas d' études, pp. 41-56. ISBN: 9788890790225.
- •Manuguerra S., **Morghese M.**, Randazzo M., Arena R., Gharbi S., Renda G., Laudicella A., Pizzo F., La Barbera L., Messina C. M. 2016. Indicateurs biochimiques pour la révélation du stress induit par différentes méthodes d'abattage, et des effets sur la qualité du produit de loup de mer (*Dicentrarchus labrax*). Qualité des produits aquacoles: les cas d' études, pp. 16-33. ISBN: 9788890790225
