

## Marianna Musco, PhD

### PERSONAL INFORMATIONS

**Name:** Marianna

**Surname:** Musco

**Place and date of birth:** Palermo, November 25th 1982

**Address:** Via del Mare 3 - 91021 Campobello di Mazara- Italy

**Nationality:** Italian

**E-mail:** marianna.musco@iamc.cnr.it

**Tel.:** +39092440600

### INTRODUCTION

Since 2012 I am working as Researcher at the Italian National Research Council, Institute for Coastal Marine Environment, carrying out biological and ecological analyzes on benthic and planktonic marine organisms for several projects aimed at environmental monitoring.

My research interests mainly concern marine ecology and biology, with particular interest in: mechanisms of coupling between physical-chemical factors and biological resources in coastal marine environment, foraminiferal taxonomy, biological and biochemical and ecological characteristics of foraminifera, bioindication, organisms mechanisms of response in relation to different stress and pollution, taxonomy and distribution of zooplankton.

### EDUCATION

2012 - PhD in Environmental Science at the Ca 'Foscari University of Venice with the project: "Study of the benthonic foraminifera along the Sicilian coasts (Tyrrhenian Sea and Sicily Channel) and their use as bioindicators".

2008 - Degree in Natural Sciences with the final mark of 110/110 with honors at the University of Palermo. Title of the thesis: "Studio dei foraminiferi bentonici nella Piattaforma del Canale di Sicilia e loro possibile utilizzo come bioindicatori" Supervisor: Prof. A. Mazzola.

2000 - High School degree Liceo Classico G. Meli Palermo, final mark 71/100

### WORKING EXPERIENCE

- Technician Expert at the Regional Agency for Environmental protection - ARPA Sicilia, ST3 Marine Area, on the study of zooplankton of the Pelagic Habitat.
- Researcher at National Research Council of Italy (CNR)-Institute of Marine and Coastal Environment of Capo Granitola on the topic of ecological studies on pelagic and benthonic organisms as potential bioindicators.
- Occasional professional services at National Research Council of Italy (CNR)-Institute of Marine and Coastal Environment of Capo Granitola on the topic of scientific disseminatoin.
